Are there any changes from last year? Y N Preferred contact number Home Cell

"The purpose of the Bedford Garden Club is to study horticulture, conservation and other garden-related subjects for the education of its members and to promote civic landscape improvement within the Bedford community."

There are valuable benefits of being a member of our organization: interesting workshops, programs, and field trips; discounts from garden-related businesses; pride in local beautification projects, and fellowship with others with shared interests. In turn, each member is responsible for working on activities that support our goals. This includes working on the following activities. Please check how you are able to participate:

_____ Community Gardens: Help maintain small garden areas in Bedford that are sponsored by our club. Most do not require significant effort or time.

_____ Plant Sale: Support our major fundraiser with organization of the event, obtaining transplants from our gardens and assisting in the setup and sale day. Monetary donations are acceptable from those who are unable to provide plants.

_____ Fall Mum Sale: Help with organization, purchase and sale of mums at a Bedford Farmers Market Day

_____ Hospitality: Provide refreshments for our monthly meetings, June luncheon, or Holiday party. Each member is responsible for a contributing to our social events.

_____ Membership: Assist with recruitment and mentorship of new members.

_____ Field trips: Find new places to see, things to do, and organize special programs.

_____ Programs: Help find exciting meeting programs, field trips, and activities.

Other: Your interests or special talents _____

Dues are \$25.00 per person, \$35.00 per couple.

Please mail checks to:
